## Empowering Futures with the CS Starter Academy

Stephanie DeCicco, Ed.D.  
Associate Director, Community College Pathways  
Discovery Partners Institute, University of Illinois System

College Changes Everything Conference  
Thursday, July 18, 2024

# CS Starter Academy 2024

## Stephanie DeCicco, EdD

Associate Director, Community College Pathways  
Discovery Partners Institute, U of I Systems

- 34 years in the Illinois Higher Education System
- Worked as an administrator in Community Colleges and Universities (advisor, director, dean, VP)
- Attended undergrad and grad here in Illinois!

DISCOVERY PARTNERS INSTITUTE

PART OF THE UNIVERSITY OF ILLINOIS SYSTEM

# CS Starter Academy 2024

---

## Today's One BIG Goal

To identify at least one take-away idea, suggestion, program, process, etc. that can help community college students overcome the barriers in transferring to a four-year college.

# CS Starter Academy 2024

## Who is the Discovery Partners Institute?

DPI is an institute within the University of Illinois System, and its overarching goal is to propel Chicago and Illinois into a pre-eminent and inclusive tech economy over the next decade.

### DPI's Goals and Approach:

Establish and grow collaborative partnerships that address grand challenges, elevate entrepreneurship, and educate the next-generation workforce.

1

Applied  
R&D

2

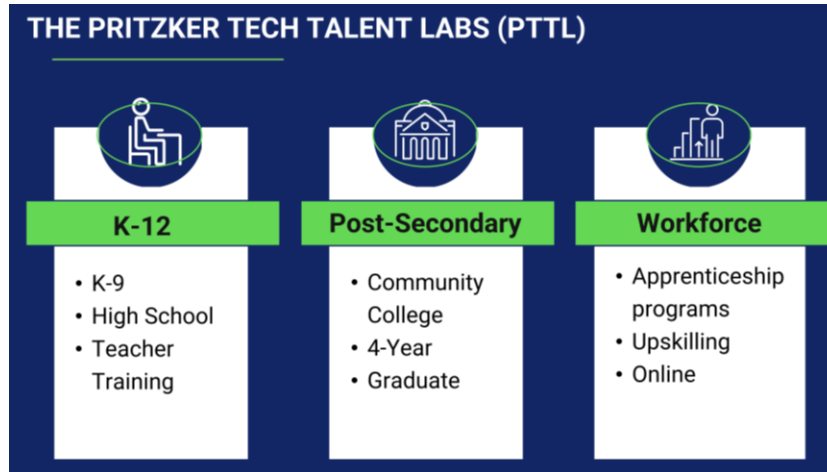

Business  
Building

3

Tech Talent  
Development

# CS Starter Academy 2024

Within DPI, the Pritzker Tech Talent Labs (PTTL) Unit offers programming for middle, high school, community college, 4-year and graduate students, K-12 teachers, and the workforce to develop diverse tech talent.

The CS Starter Academy is part of the Post-Secondary sub-unit, and is a program specifically for community college students to help develop diversify CS talent by promoting CS and clarifying the transfer process from community college to 4-year

# CS Starter Academy 2024

Although 80% of CC students say they intend to transfer to a 4-year college or university, only 31% actually do within 6 years because of institutional barriers.

Of the 31% that do transfer, less than half complete a bachelor's degree due to non-academic reasons.

# CS Starter Academy 2024

## By the numbers....

*EX: 1000 community college students*

- 80% say they want to transfer  
800 students
- But only 31% actually transfer  
310 students
- Less than half of that 310 actually graduate  
<155 students

*Just under 16% of the original 1000!*

# CS Starter Academy 2024

## What contributes to such a low transfer rate?

- Credit loss during transfer
- Financial constraints
- Complexity of transfer
- Lack of confidence in studying Computer Science or Tech
- Inadequate transfer support (500:1 ratios, lack of training, etc.)
- Students of color are disproportionately directed towards non-transferable courses

# CS Starter Academy 2024

## Why focus on just Computer Science?

What percentage of jobs in the U.S. today require computing knowledge?

Only **8%** of graduates in CS, computer engineering, and information sciences across the University of Illinois System were Black or Latinx in 2022. **These populations remain significantly underrepresented in the Chicago tech community** (currently **12-14%** of tech workforce)

# CS Starter Academy 2024

## This is why programs like CSSA are necessary!

CSSA tackles the crucial problem of **TRANSFER OBSTACLES** and **INSTITUTIONAL BARRIERS** that disproportionately hinder minority students, which in turn affects diversity within Computer Science.

Helping Students Transfer  
and Succeed

# CS Starter Academy 2024

## What is the CS Starter Academy?

- The CS Starter Academy (CSSA) is two-semester cohort program designed to help community college students navigate the Computer Science transfer pathway and their career journey.
- The program is funded by Google and is offered by DPI in partnership with City Colleges of Chicago.
- CSSA is a non-credit, no cost, supportive educational initiative that requires continuous, committed participation up to 3-5 hours per week during the Fall and Spring semesters.

DISCOVERY PARTNERS INSTITUTE

PART OF THE UNIVERSITY OF ILLINOIS SYSTEM

**CITY COLLEGES**  
OF CHICAGO

# CS Starter Academy 2024

## What are the goals of the CS Starter Academy?

- Introduce the variety of sectors of CS to inform job choice, course selection and networking strategies
- Introduce the university setting to enhance students' sense of belonging and interest in transfer
- Boost students' self-efficacy in envisioning themselves in CS careers
- Clarify and promote the CS pathway from CC to 4-year
- De-mystify the complex transfer process
- Enrollment and support in the Google Data Analytics Cert or Google Cybersecurity Certificate

# CS Starter Academy 2024

## How do students find us/apply for the program?

**CS Starter Academy**  
D P I

**Who's Eligible?**

- Students from all seven City Colleges of Chicago
- Incoming and current community college students interested in Computer Science, technology and/or tech-adjacent fields
- Students intending to transfer to a 4 yr school
- Students authorized to work in the US

The CS Starter Academy is intentional about serving historically excluded populations including Black, Latinx, and women.

To apply, scan the QR code below:

**CS Starter Academy 2024**  
(Computer Science Starter Academy)

A Fall and Spring cohort program for City Colleges of Chicago students interested in Computer Science and tech-related fields

**What is the CS Starter Academy (CSSA)?**  
The CS Starter Academy is a two-semester cohort program designed to support community college students as they navigate the Computer Science transfer pathway and career journey. CSSA is a paid initiative requiring continuous, committed participation for an average of 3-5 hours per week during the academic year.

**Earn a Google Certificate**

**Earn a STIPEND**

**Work with Mentors**

**3-5 hours per week**

**What will I do as a Cohort Member?**

- Attend CS/tech related workshops and panels
- Work with a CS mentor and a dedicated CS academic advisor
- Earn a Google Certificate in Data Analysis or Cybersecurity
- Learn about the Chicago Tech Ecosystem through company visits
- Acquire college success strategies and resources
- Earn a stipend for ongoing program commitment and participation

**Why should I apply for the CS Starter Academy?**

- To build your network of resources, contacts, and strategies for success
- To support you on your transfer journey
- To help you prepare excellent transfer applications to 4-year schools
- To earn an industry recognized certificate

**How do I apply for the CS Starter Academy?**

- Applications are now OPEN for the Fall 2024 CS Starter Academy cohort
- Complete the application here: <https://go.uillinois.edu/CSSAcademy-App> or scan the QR code to the left.
- Deadline to apply is **Friday, August 2, 2024** by 11:59 pm.

D P I DISCOVERY PARTNERS INSTITUTE

- We start advertising in May – August
- Shared out to LinkedIn, Twitter/X, email to CCC advisors/faculty/college administration, referrals
- All applicants are interviewed
- Program begins the week before the start of CCC Fall 2024 semester

# CS Starter Academy 2024

---

## What is the criteria for acceptance into the cohort?

- Currently enrolled City Colleges of Chicago credit student (pt or ft) during BOTH Fall 2024 and Spring 2025 semesters
- Studying Computer Science, Engineering, tech or tech-adjacent field
- Intending to transfer to a 4-year school (on an AA/AS/AES pathway)
- Authorized to work in the US

# CS Starter Academy 2024

---

## What can students expect as a CSSA 2024 Cohort Member?

- Close-knit cohort experience
- CS/tech related workshops and panels
- Engagement with a CS mentor and a dedicated CS academic advisor
- Enrollment in a Google Certificate in Data Analysis or Cybersecurity
- Learn about the Chicago Tech Ecosystem through company visits
- Acquire college success strategies and resources
- Earn a stipend for ongoing program commitment and participation

# CS Starter Academy 2024

## Are there activities students must attend?

Yes! Cohort members must attend the following activities to earn the stipend:

- Orientation (Friday, August 16<sup>th</sup>, 12:00 pm – 3:30 pm)
- Monthly CSSA cohort meetings
- Identified monthly events (2 to 3/month) EX: workshops, company visits, career events, transfer sessions, etc.) held on Thursday afternoons during Fall and Spring semesters
- Monthly CS Academic Advising and CS Mentor meetings (via Zoom)
- Enrollment in a Google Certificate (Cybersecurity or Data Analytics)

## Evaluation Component

We evaluate CSSA by applying the PTTL Outcomes Framework, in addition to using our own evaluation framework.

ULTIMATE IMPACT			
Retain diverse talent in computing and computing-related fields in Illinois.			
GOAL			
Empower participants to formulate plans and/or take action to pursue computing or computing-related fields			
Knowledge	Skills & Confidence	Connections	Career
OUTCOMES			
Increase knowledge of education and career path options	Improve skills and/or confidence in technical field/area/practices	Build connection to like-minded peers	Increase career readiness
Improve technical knowledge in field/area/practice	Improve skills in adaptive thinking, planning, and pivoting	Building connections to universities	Increase access to credentials
Improve knowledge of the Chicago tech community	Build confidence that there is a role/place for them in the computer science field	Build connections with Chicago tech community	Increase access to tech job/career opportunities

# CS Starter Academy

## What we learned in Year 1:

- Engagement that falls outside of students' credit coursework must be purposeful, succinct, accessible, and well-timed
- To successfully engage students, we need to know what students find meaningful and helpful to them on their journey
- Compensate students for employment lost due to participation in a program that levels the playing field for underrepresented students
- Offer multiple options and modes for participation
- Offer a variety of career-based certificates
- Refine our operations – be more efficient on the inside

# CS Starter Academy

## What we learned in Year 1, continued

Although we've been successful in mitigating many barriers, some practical considerations and academic requirements that DIRECTLY impact transfer students fall outside of our scope:

- Cadence of course offerings to transfer
- Limited acceptance of transfer credits
- Competitive admissions
- Students' resource constraints
- Transfer Institution Policies (only X number of transfers accepted, for ex)

# CS Starter Academy

---

## Year 2

- Year 2 Application is open through August 2
- Interviewing for 60 spots this year (15 min slots)
- Program will start the week before CCC Fall semester with Orientation

# CS Starter Academy

---

**Questions?**
